

How to download County data of NYS Address Point Data?

1. Go to NYS GIS Resource Hub: <https://data.gis.ny.gov/>
2. In the “Search data” bar type “Address Points”
3. Scroll down and click on “NYS Address Points”

The screenshot shows a search result for 'NYS Address Points' on the NYS GIS Resource Hub. The title 'NYS Address Points' is highlighted with a red box. Below the title, it says 'NYS GIS_GPO'. The description reads: 'Point file of buildings and properties in New York State. A web service of the Address Point file is available...'. At the bottom, there are two columns of metadata: 'Type: Feature Service' and 'Sharing: Team' on the left; 'Last Updated: December 23, 2022' and 'Tags: NGDA, National Geospatial Data Asset, Address Theme' on the right.

4. Select Filter Data 
5. Scroll down to where you see CountyName and select the box the Check the field

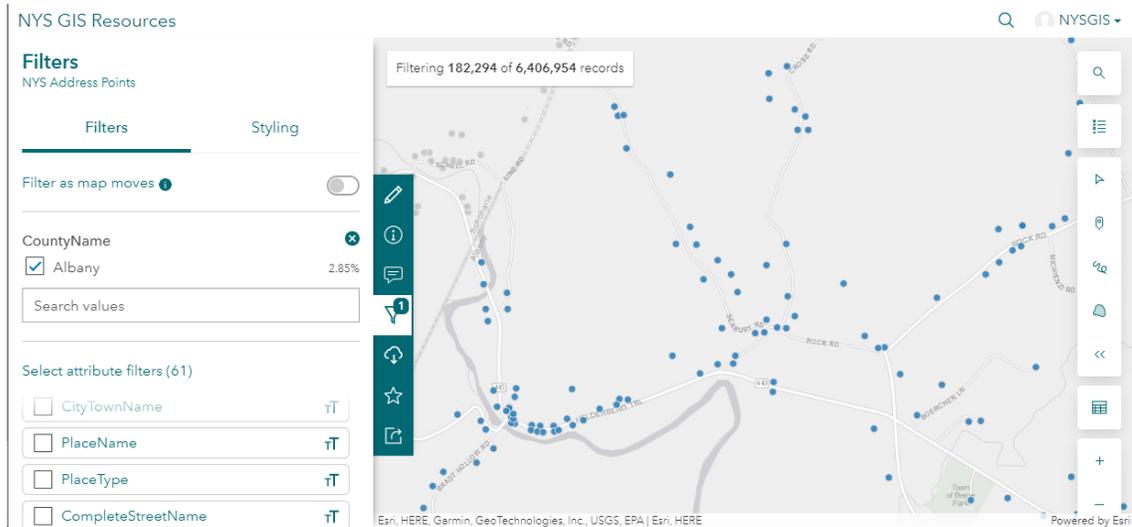

The screenshot shows the 'Filters' panel for 'NYS Address Points'. The panel has two tabs: 'Filters' (selected) and 'Styling'. Under the 'Filters' tab, there is a toggle for 'Filter as map moves' which is turned off. Below that is a search box for 'CountyName' with the text 'Search values' inside. Underneath the search box is a section titled 'Select attribute filters (61)'. There are four filter options listed: 'Status', 'AddressLabel', 'CountyName', and 'CLDXF_PreDirectional'. The 'CountyName' filter is checked, and its corresponding 'tT' icon is highlighted. To the right of the filters panel is a map showing a portion of New York State with labels for 'Rochester' and 'Cornell'. A vertical toolbar on the map includes icons for edit, info, share, filter (with a '1' notification), refresh, favorite, and print. A white box at the top of the map indicates '6,406,954 records'.

6. Search for the county you would like to download

CountyName ✕

7. Once the Drop down appears (**this may take a few minutes**), click on the county name to turn on the filter

8. Select the “Download” icon , then Toggle Filters

Toggle Filters:

9. Select the data type you would like to download; a compressed file (.zip) will download

Note: The data download will be names NYS_Address_Points_- *Numbers*, for organizational purposes we suggest renaming the file to **CountyName_NYSAddressPoints_Date**
